The workshop is specially designed to participate as a family. Grandparent and parents are encouraged to participate with their children to develop a close bonding and understanding and have a good fun time during weekends.

Rules and regulations

Participants: Team of a minimum two participants are encouraged to work together. Grandparents, parents and other family members are needed to team-up with their children to participate in this workshop.

Place : Local Community Museum.

Date and time : Every Weekend Saturday and Sunday , 11am- 12pm.

Maximum 10 teams are allowed for each session. Each session will be carried out under the supervision of a potter and artist. Each session will carried out after a brief lecture on ceramics tradition of ancient time

Registration: Please, register 3 days before the workshop at local school or in museum reception counter. Online form is also available at museum website.

Materials and equipment : All of the needed materials and necessary equipment will be provided by museum authorities. Be mindful and wear comfortable clothes.

Things to keep in Mind

Please , read about the above mentioned text on Ceramics of Indus Valley Civilization for better understanding about usage of pots in ancient times.

Write down your observation about shape, color, size, thickness, usage, motif etc. Select any one object at a time that seems interesting to you.

Think deeply; discuss with your partner what pot you and your partners want to make. Use your imagination skill and try to imagine a pot in your mind. Have you decided the shape, probable size, what color you want to see on your pot. Prepare yourself for the next workshop

We hope to see you in our museum, thank you.
